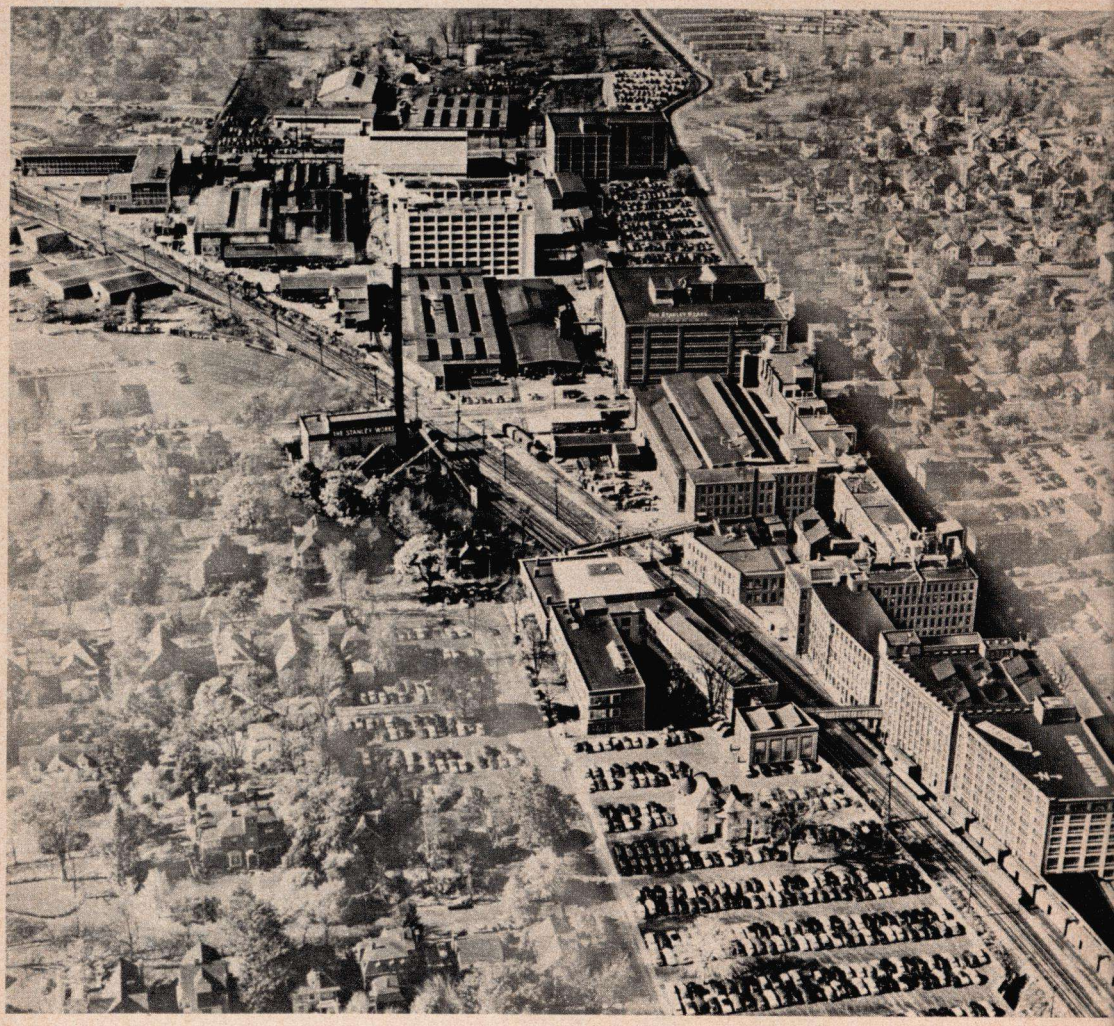
STANLEY HARDWARE



Aerial View Main Plant and Offices of The Stanley Works, New Britain, Conn.

Many of the items illustrated in this small catalog are already working for you —there are many more that could contribute to a pleasanter environment or an easier day's work.

For more than 100 years The Stanley Works has been supplying hardware to this country and to the world.

Its continued growth is your assurance that its products are quality products, that the famed Stanley trademark is your assurance of satisfaction.

STANLEY *Hardware* a division of The STANLEY Works

for better living . . .

"trouble free" hardware

by STANLEY

Your home is probably your greatest single investment in happiness!

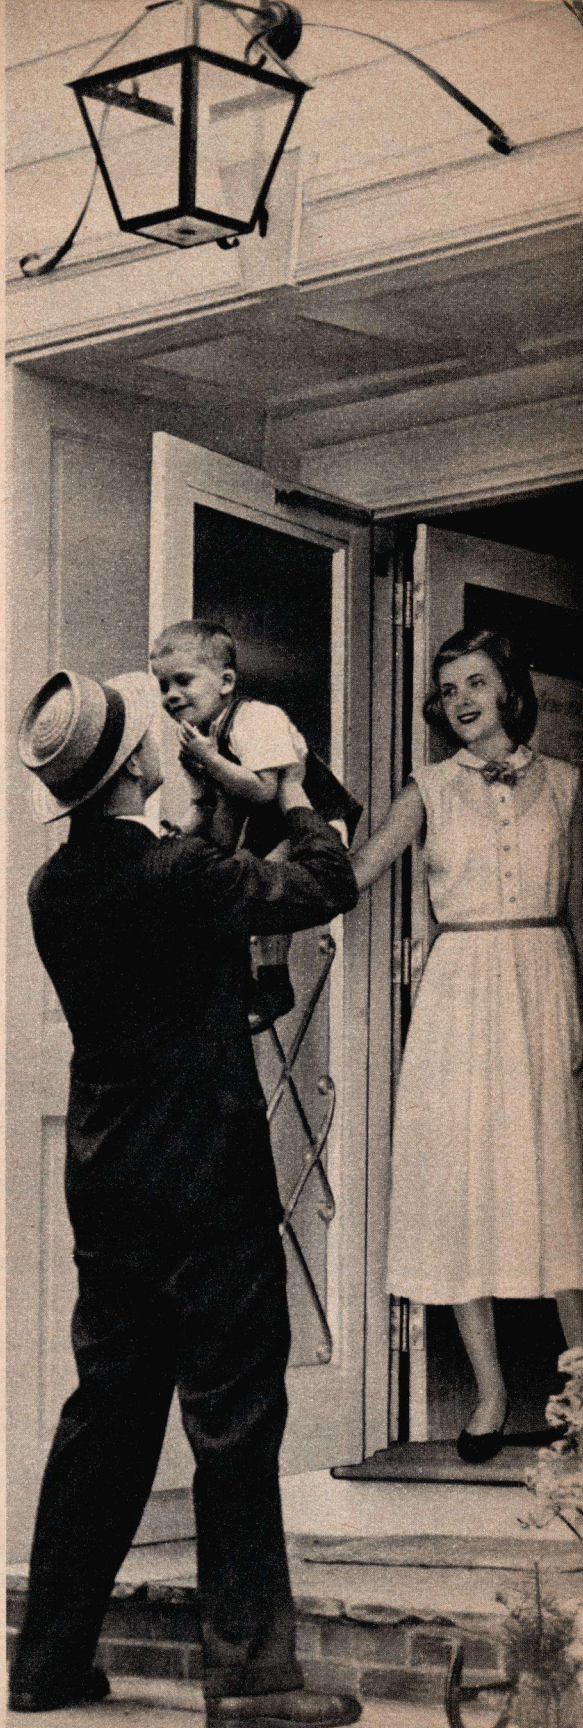
As such, your home should be reasonably free from irksome mechanical defects, *preventable* defects, that so often intrude on pleasant living.

Most exasperating is the warped front door that will not lock—the closet door that sticks—kitchen cabinet doors that never stayed closed. Little things, perhaps, but more "be-deviling" than they have any right to be.

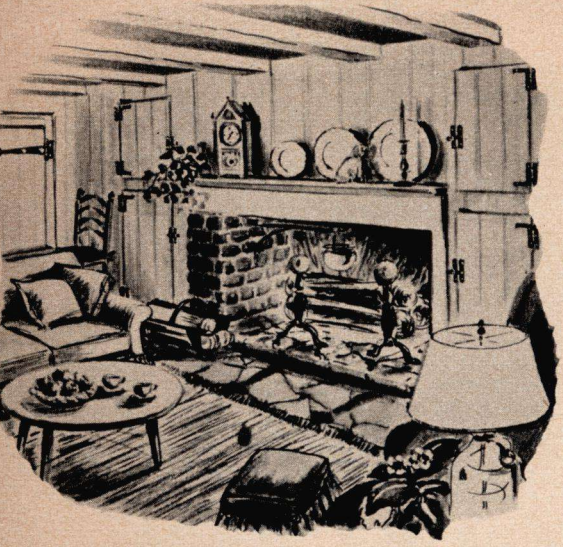
Many of them are the result of improper or inadequate household hardware, and can be prevented with a simple knowledge of the common trouble-spots and the proper hardware for them.

In this 32 page booklet, Stanley illustrates and describes a wide range of top-quality hardware that promises you a trouble-proof home—whether you are contemplating the glorious adventure of building—or remodeling —or simply "fixin."

"For your convenience and to better serve you as a buying guide, we have listed prices in this book to indicate the approximate value of each item. Prices, however, are subject to change without notice. Check with your Dealer."



RUSTIC IRON in ANTIQUE BLACK or COPPER FINISH



You'll like Stanley Rustic Iron for your Cabinets and Full-Size Interior Doors—like its Rough Textured Finish, Hammered Edges, Authentic Designs. It's styled from Colonial and Early American pieces—complements both natural wood and painted surfaces. It's smart and practical for any room in the house—ideal for interior renovations—easily and quickly applied. Bonderized base assures lasting finish.

Saves you time! money!

ELIMINATES GUESSWORK!

Were you ever told "John, I want that jam and jelly cupboard door fixed today — or else!"? If so, you hastened to your nearest Dealer in hardware. Uncertain of just what was required, you discussed the problem with him. After many minutes of this, you settled on a pair of T-hinges and a barrel bolt. Then you waited while he dug up the right number of screws and in the right size.

In the time it took, you could have fixed the cupboard twice-over.

STANLEY HOUSEHOLD HARDWARE eliminates such wasted time. From the merchandiser you may quickly select the item you require. Screws are attached. You are back on the job in no time.

You See! - Select! - Buy! - Quickly, Easily

This is self-service at its best. Each card is a complete unit. You buy with confidence. Be sure and look for the Stanley Household Hardware merchandiser at your Dealer's.

Each carded item is prominently identified by name, class number and size.

Suggested uses are printed on each card.
You may examine the hardware at first hand.

You have the right number of screws in the right size.

SPACE SAVING SLIDING DOOR

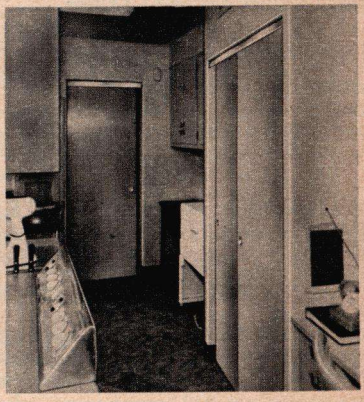
Solves So Many Problems—

Sliding doors are modern, functional, smart looking! They solve space problems—allow for greater freedom of arrangement. And with Stanley Sliding Door Hardware, you can be sure of a quiet, smooth-working performance—years of trouble free service.

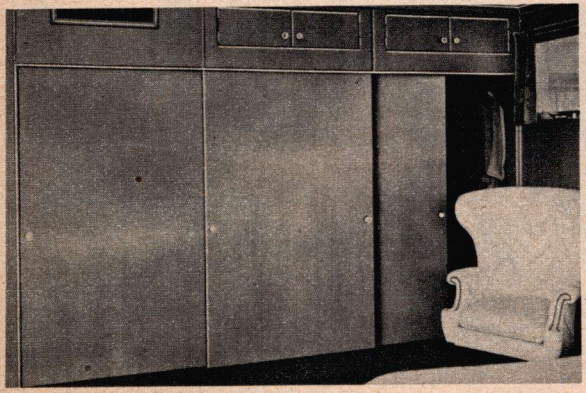
The handyman (or lady) will not find it difficult to install Stanley equipment. Actually, the only tool required is a screw driver. Every set is completely packaged in one carton—track, hangers, floor guide and screws—plus complete, easy-to-follow instructions.

For your sliding doors, Stanley also offers a wide variety of trim items—pulls, latches, etc.,—as well as accessory hardware to meet every need. See Your Dealer.

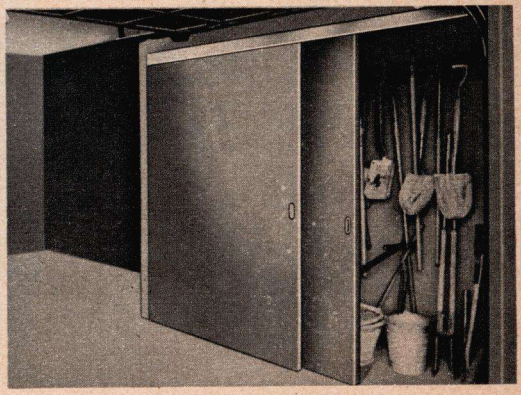
You, too, will be pleased with the convenience of by-passing doors for your closets.



With Stanley Sliding Door Hardware, every inch of floor space is useable.



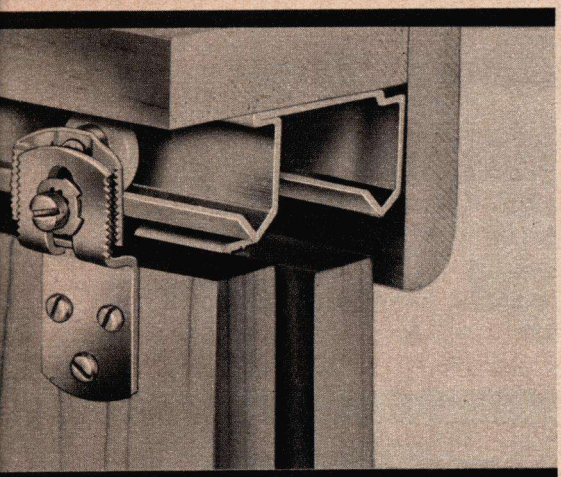
Sliding doors equipped with Stanley Hardware are made for every interior opening. A space saver.



In this garage, Stanley sliding doors help maintain a neat appearance—protect storage area.

DUAL PURPOSE SETS—*EASY* TO INSTALL

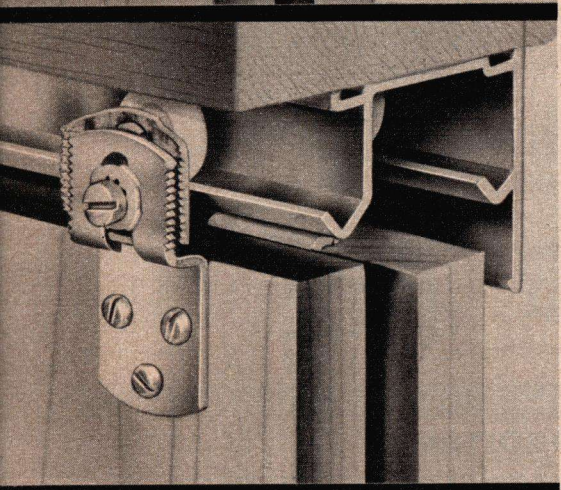
For Every Home-Planner! Home-Builder! Home-Owner!



NO. 2800

For 2 By-Passing Doors either ¾" or 1⅜" thick 4', 5', 6' and 8' Openings

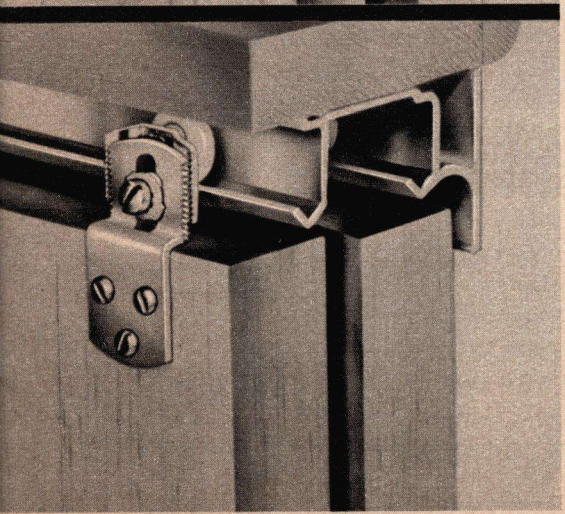
Everything is one package for your convenience—including screws and easy-to-follow installation folder. Hangers are equipped with silent, permanently lubricated nylon rollers and may be adjusted vertically ⅜" without touching screws in door. Track is of steel, press-formed for straightness. Adjustable nylon floor guide requires only 3 screws, eliminates bottom door grooving. Prices start at $5.25 per set.



NO. 2804

with BUILT-IN Header Trim For By-Passing Doors ¾" thick 4', 5', 6' and 8' openings

The Stanley 2804 packaged sets for ¾" doors have a built-in header trim that completely covers all working parts, saves the extra labor of installing separate trim. Track is made of extruded aluminum with trim in beautiful anodized finish which may be painted to match room colors. Unique hangers are the same as those used on the 2800 and 2808 sets. Molded nylon floor guide assures smooth operations. Prices start at $9.80 per set.

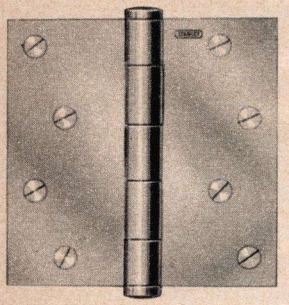


NO. 2808

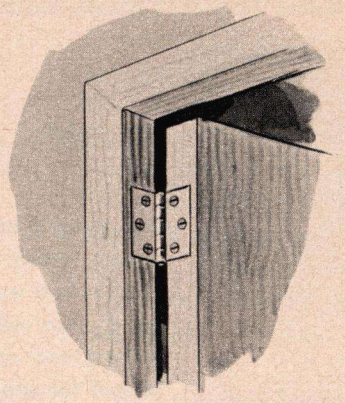
with BUILT-IN Header Trim for By-Passing Doors 1⅜" thick 4', 5', 6' and 8' openings

The 2808 set for 2 by-passing doors, 1⅜" thick, has built-in header trim that completely covers all working parts, saves the extra labor of installing separate trim. Track is of extruded aluminum with trim in anodized finish that may be painted to harmonize with room colors. Unique hangers are the same as those used on the 2800 and 2804 sets. Adjustable nylon floor guide. Prices start at $11.00 per set.

241—STANDARD OF THE WORLD



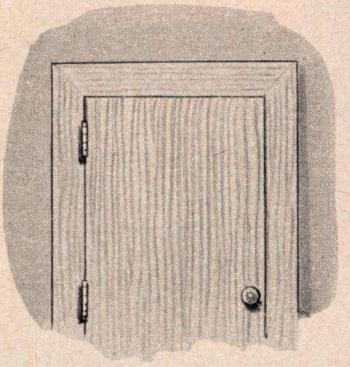
Sizes: 2" x 2" to 6" x 6"
Standard Finishes or
Primed for Painting

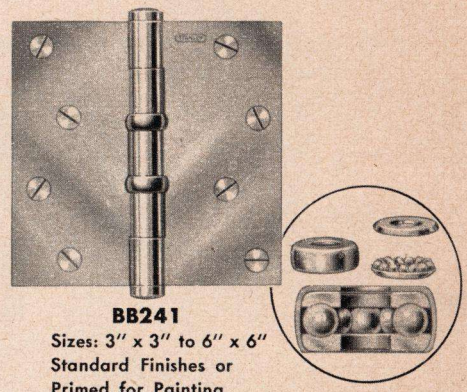


The importance of good hinging cannot be stressed too strongly and in the 241 for interior doors Stanley has built-in all the wanted features: non-rising, lubricated pin; flat button tips with hole in lower tip for easy pin removal; smooth, quiet joints; streamlined swaging; accurate countersinking; interchangeable hinge leaves; very finely finished.

FOR YOUR EXTERIOR DOORS

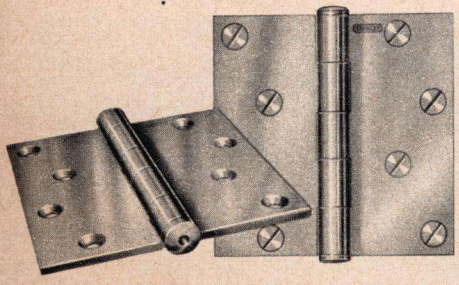
For a lifetime of smooth operation, your exterior doors should be equipped with three ball-bearing hinges. They are designed to carry the extra weight and they are obtainable in brass, bronze or steel —heavily plated or prime coated.



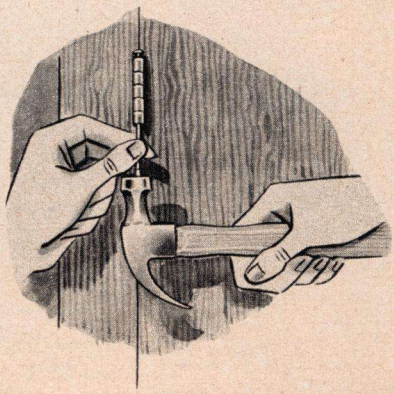


BB241
Sizes: 3" x 3" to 6" x 6"
Standard Finishes or
Primed for Painting

HOLE IN BOTTOM TIP FOR EASY PIN REMOVAL

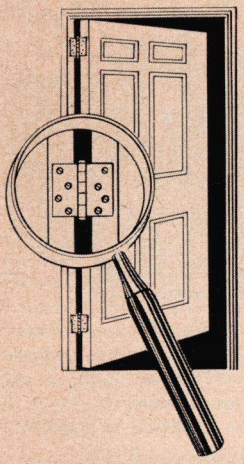


To remove pin merely
insert nail in hole
and tap gently.



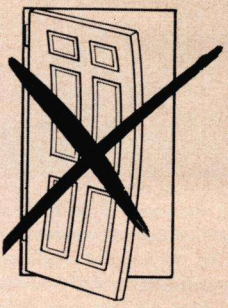
Unless otherwise specified, all Stanley hinges have neat, trim flat button tips with a hole in lower tip for easy pin removal. To remove hinge pin, it is only necessary to insert a nail in the hole and tap gently. This easy action eliminates the possibility of marring hinge finish or gouging woodwork.

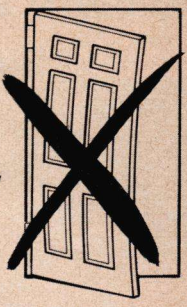
3 HINGES TO A DOOR . . . STANLEY

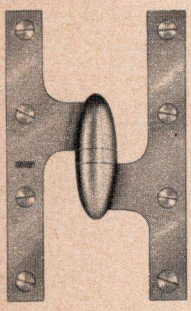


THE SAVINGS IN THAT 3RD HINGE

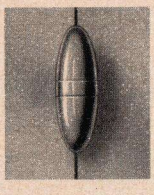
In selecting the latch and trim items for any door, the hinge side of your door should not be forgotten or left to chance. Because it is the hinge side that frequently determines whether or not a door closes and latches the way it should. Your best guarantee against faulty door operation is *3 hinges to a door.* The third or middle hinge holds the door in line, prevents warping, assures years of smooth service. *AND* the cost of that third hinge on all doors is far, far, less than the cost of repairing a single warped door later.

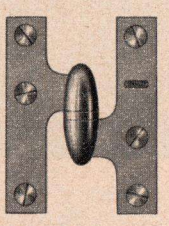






BB200 for Interior Doors





200 for Cabinet Doors

OLIVE KNUCKLE HINGES bring HINGE BEAUTY to EVERY HOME

Only the Olive Knuckle Shows When the Door is Closed.

The distinctive styling of the Stanley Olive Knuckle Hinge is only matched by its smooth operation, lifetime performance. They are designed for both interior and cabinet doors in brass or bronze, wrought steel (polished and plated) or prime coated for painting.

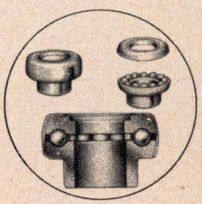
FOR INTERIOR DOORS prices start at **$6.20** a pair.

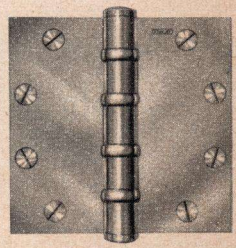
FOR CABINET DOORS prices start at **$3.85** a pair.

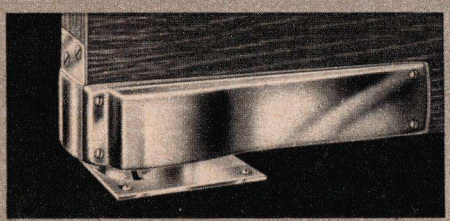
STANLEY FULL JEWELED HINGE

"THE HINGE THAT WON'T WEAR OUT"

If called upon to serve as a member of your school or church building committee, we thought you'd like to know about the Stanley Full-Jeweled Hinge. A four bearing hinge, it is scientifically designed to take both the lateral as well as vertical thrust of a door for the life of the building.







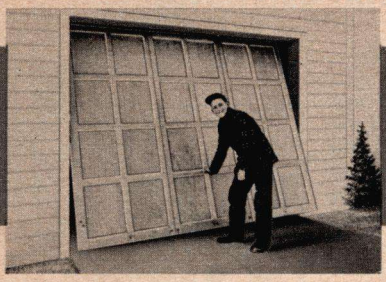
DOUBLE ACTING FLOOR HINGES

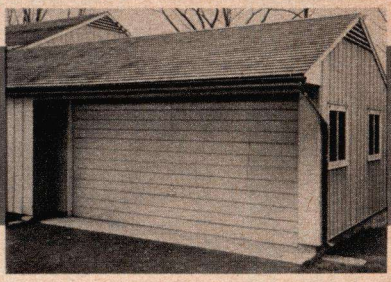
Ideal for doors between dining room and kitchen. Hinge swings door both ways, automatically holds it open at angle of 90 degrees.

155 ILLUSTRATED. Other designs available. Prices start at **$3.00** per set.

STANLEY SWING-UP AND ROLL-UP GARAGE DOORS

RESIDENTAL *SWING-UPS* with *FLOATING* ACTION

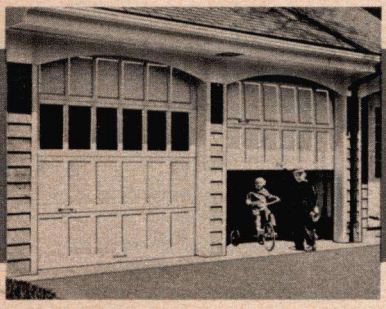


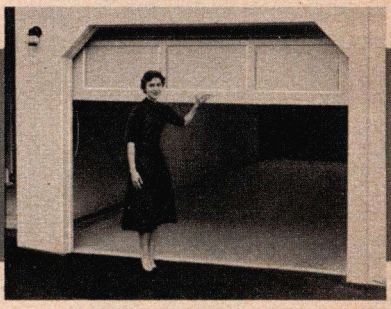


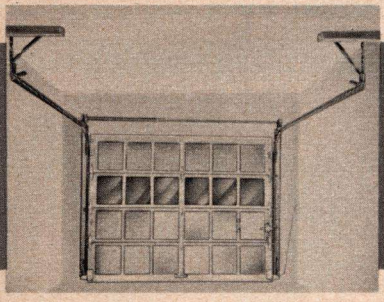
For Single or Two Car Garages—8 to 16 foot openings. Flick the handle and door swings up—smoothly, quietly, automatically. Door is lifted by sturdy, steel angle arms, powered by heat-treated, oil-tempered springs. Ball bearing wheels ride on jump-proof track. In open position door is completely up and out of the way. There is no overhang to catch rain water or get buffeted in the wind. Cradled in steel, it cannot warp, sag or bind. Doors are available in many designs to match the architecture of your home. Brass Cylinder lock may be master-keyed to other locks of the same make.

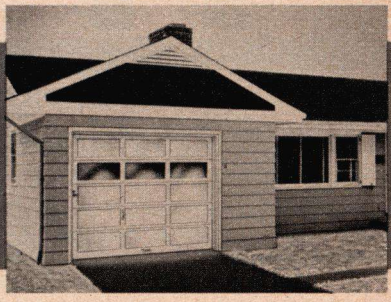
*Note: Hardware only available for converting hinged doors (weighing not over 150 lbs.) into modern swing-ups.

RESIDENTIAL *ROLL-UPS* with *FEATHER-TOUCH* ACTION









Available for both single and two car garages. They are designed to give you a smart, attractive installation at low cost—smooth, silent finger tip operation. Door designs are available in many styles—Colonial, Modern, and Ranch Type! Sizes run from 8′ x 6′6″ for single openings up to 16 foot doors for two car openings. As in the Swing-ups, doors have brass cylinder locks that may be master-keyed to other locks of the same make. In Stanley "Roll-Up" Doors and Hardware you are assured of top-quality for years and years of carefree service.

Ask your Dealer about the new Stanley "Free-Way" series that bring you an extremely low headroom set (2722), doors that operate by tension springs (2720) or torsion springs (2721). It will pay you to check their features carefully: inclined track for snug, weather-tight closing—adjustable lock strike to overcome any un-evenness in your garage floor—ball bearing roller hinges for smooth, quiet door operation—simplified adjustment features that assure equal lifting power at both sides of door, etc. Available to you in this series are 8 door designs in 6 sizes—"just the right one" to meet your needs. All sets are completely packaged in one carton with simple, easy-to-follow installation instructions.

RADIO CONTROL OPERATORS for GARAGE DOORS

The Modern Touch

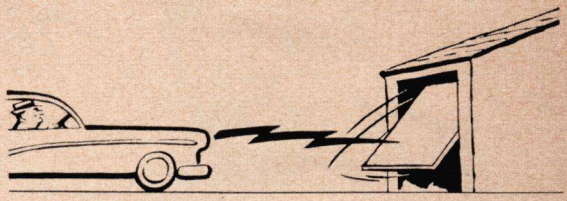
Enjoy the convenience and dependability of a Stanley Radio Control Operator for *opening* or *closing* your roll-up and/or swing-up garage door. Foolproof in action, a Stanley Radio Control Operator is your faithful servant in all kinds of weather. A touch of the signal button, conveniently located on the dashboard, is all that's needed to raise your door, floodlight your driveway and garage interior, while you remain safe and dry inside your car. Operator is easily, quickly installed—low in price. See your Dealer.

Radio controlled operator will open or close door 85 feet away. Extra push buttons obtainable for opening or closing door from your house.

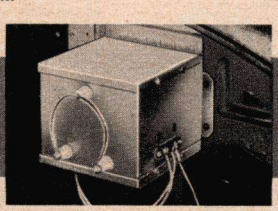
Two models:

E4134A5—For doors not over 16' wide x 7' high.

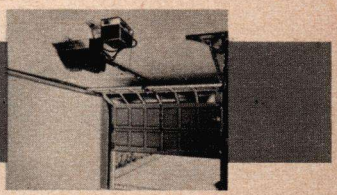
E4135A5—For doors not over 16' wide x 8' high.



1. A touch of the signal button and garage door opens from locked position in 5 seconds.

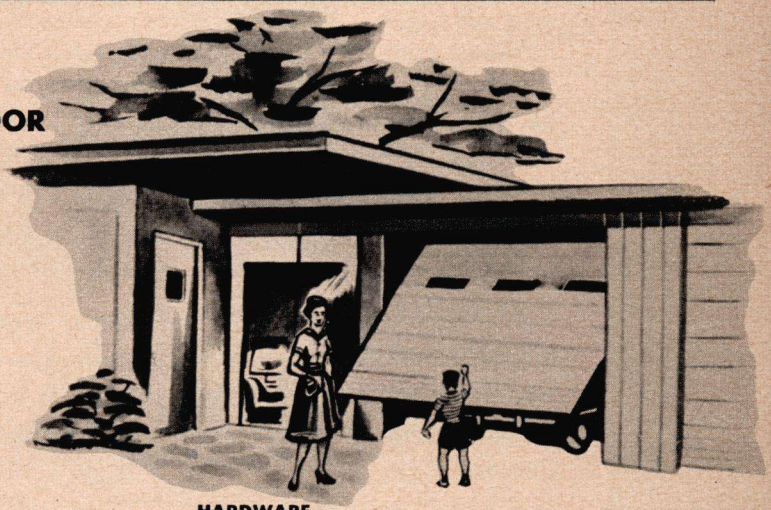


2. Compact transmitter beneath hood sends forth radio signal which is picked-up by receiver in garage.



3. Operator opens door smoothly, quietly as you drive up in your car.

STANLEY STEEL "SWING-UP" GARAGE DOOR



- **Beautiful-Functional**
- **4 Sizes—3 Styles**
- **All metal construction**
- **Outstanding features**

DOOR

24-gauge steel, tightly zinc coated. Bonderized and prime coated, ready for your choice in final painted finish. All welded joints—no rivets to loosen or mar appearance. Proofed against weather or rust, this steel door will endure indefinitely. Price it at your Dealer's.

HARDWARE

Floating action bearings roll quietly, effortlessly. Cylinder lock and handle located at knee level in center of door. Weather-stripping seals opening when door is closed. Heat-treated, oil-tempered springs carry door completely up and out of the way automatically. Minimum of depth, headroom and sideroom required.

The Man You Ought To Know

Your hardware supplier is a man you should know. He's a solid citizen—active in community affairs and very much interested in helping you with your problems. You will not go wrong, if you accept his advice and counsel in your hardware problems.

When you call on him, take this booklet with you. While he may not have the particular item you've selected, he will probably be able to show you an acceptable alternate. If not, he can always order it from his Distributor. This book illustrates only a few of the items in the Stanley hardware line but your dealer will be pleased to show you a complete Stanley catalog.

"For your convenience and to better serve you as a buying guide, prices are listed in this book to indicate the approximate value of each item. Prices, however, are subject to change without notice. Please check with your Dealer."
